AAIsafeR2: New Pacing Mode for the Next Decade
ELA- Sorin**

1. Please rate how well you were able to achieve the activity learning objectives:

a. Review the results of clinical trials comparing different pacing modes

- Excellent
- Good
- Satisfactory
- Fair
- Poor

b. Understand the impact of ventricular pacing on the development of congestive heart failure and atrial fibrillation

- Excellent
- Good
- Satisfactory
- Fair
- Poor

c. Discuss the new pacing algorithm, AAI safe R and its effects on ventricular pacing

- Excellent
- Good
- Satisfactory
- Fair
- Poor

2. Please rate the relevance of the activity's content to the objectives

- Excellent
- Good
- Satisfactory
- Fair
- Poor

3. Please rate the content and its impact on your practice

- Will definitely change the way I practice
- Will likely impact the way I practice
- Not sure
- Of limited use in my practice
- Definitely won't impact the way I practice
- I am currently not in practice

4. Please rate whether you agree this activity was fair, balanced, objective and free of commercial bias. Yes No
(If not please explain.)
